La Psicoanalisi ai tempi della Pandemia

(Abstract dell'Editoriale di Liliana Pedron)

La Redazione di Psychoanalysis.Today ha deciso di realizzare un numero speciale sulla pandemia, nel momento in cui l'attenzione del mondo è concentrata sulla individuazione, evoluzione e controllo del Covid-19. Questa malattia porterà ad una nuova normalità? I cambiamenti prodotti saranno irreversibili? Come tutto ciò influenzerà la psicoanalisi? Fin dall'esordio della pandemia, la comunità psicoanalitica si è orientata verso modalità virtuali di

lavoro: alcune modifiche del setting e della tecnica potranno offrire occasioni di crescita e riflessione, e in ogni caso lasceranno una impronta.

Colleghi di differenti nazionalità hanno collaborato a questo numero, fornendo la loro testimonianza sul modo in cui è stato affrontato questo difficile momento.
