

BION IN MARRAKECH - 22-24 FÉVRIER 2019

*On The Border
A La Frontière*

In New York (1977), Wilfred R. Bion suggested the writing of a book to be called “*The Interpretation of Facts*” in which ‘facts’ would be translated into dream language, in order to get ‘a two-way traffic’ going with the “*Interpretation of Dreams*” (in which dreams are translated into facts).

The intention of the Bion in Marrakech seminar is such a ‘two-way traffic’: between different international groups of French and English speaking analysts, and of course among the individual analysts within them and among our scientific commitments and imaginative contributions.

Monica Horovitz
Présidente
