IPA engagement in society

Three strategic Tiers:

- Strategy of IPA Community
 & World
- Strategy of Steering Committee
- Strategy for the IPA, having an "impact on the world"

Tier I – Strategy of the IPA C&W cttees

Climate. Culture, Education, Health, Humanitarian, Law, PACE, PDR, Violence

From the mandates

- Collect data from around the world regarding work being done by IPA members in the field of the relevant committee.
- Promote the organisation of interdisciplinary events focused on psychoanalysis.
- Develop bridges between the IPA and practitioners in the field, to enhance the interchange of experiences, the development of theories, etc.
- Use **prizes** to encourage new/highlight existing high-quality work at the intersection of psychoanalysis and the relevant field.

Sww3

Tier II - Strategy of the Steering Committee

• Steer and coordinate the work being done by the various committees in the IPA and the Community and World area.

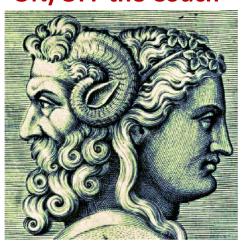

- Ensure the committees have a strong focus on external impact.
- Make connections with other organisations and groups to ensure wide engagement.
- Encourage the spread of psychoanalytic theory and ideas beyond the consulting room.
- Liaise closely with the IPA's communications organs to ensure a high profile for this work, both within the IPA and externally.
- To empower each other ctte
- Consult to the Board

Strategy for having an "impact on the world"

notable, visible, and constructive impact on the world

ON/OFF the Couch

- Include societal perspective in PA training

Psychoanalysis and Law

PSYCHOANALYSIS AND LAW IN THE FIRING LINE

RONALD DOCTOR, ADRIENNE HARRIS
& PLINIO MONTAGNA

Psychoanalysis and Law in the Firing Line consists of 20 chapters from eminent psychoanalysts from the three regions of the International Psychoanalytical Association It will discuss the global uncertainty and anxiety in attempting to make sense of the issues facing us all, both on and off the couch. We will examine the challenges of maintaining a psychoanalytical stance when working in the line of fire of severely disturbed patients, plus the massive disturbances in society including wars, pandemics, environmental destruction, and racial injustices.
