From Dream to Insight

Transforming Organisational
Understanding through
Social Dreaming

24th February

10.00 am – 1.00 pm CET
Online

This interactive session demonstrates how Social Dreaming can be used as a tool for organisational learning and transformation. Participants will experience how dreams carry collective meanings that illuminate what is unsaid or unacknowledged in systems. The workshop bridges imagination and consultancy, showing how insights from dreams can become pathways to new understanding and action.

Facilitated by

Dr. Mannie Sher,
Tavistock Institute of Human
Relations, leading authority on
consultancy, leadership and the
use of the social unconscious
in organisational change.

SDIN MEMBERS FEE: € 30
NON-MEMBERS FEE: € 70
